

## HP iPAQ 600 SERIES BUSINESS NAVIGATOR

Move your business ahead, turn by turn.

Your business has to keep running when you are on the go. This two-in-one 3G technology mobile phone with GPS navigation and personal organizer helps you run your business single handedly.

### **Two-in-one mobile phone with GPS navigation and personal organizer.**

**Phone:** Make voice calls and access the Internet globally via 3G and Quad-band wireless technology. IM and email your associates. Use HP iPAQ Device Connect to take your notebook or PC online over the high-speed HSDPA data network.<sup>1,2</sup>

**GPS:** Let Assisted GPS guide you to your business destinations.<sup>5</sup>

**Organizer:** Use familiar applications to manage your day. Mobile Office Outlook® includes Calendar, Contacts, Email, and Tasks.

**Camera:** Capture high-quality photos and video with the integrated 3 Megapixel camera.<sup>8</sup>

**Media Player:** Watch videos and read ebooks with Windows Media Player 10 Mobile, and listen to your favorite music through the speaker or with an optional Bluetooth stereo headset.

### **Designed for single-handed use.**

Scroll through your email, zoom in and out of maps, and look through your files with the Smart Touch wheel and three-way thumb wheel. View your work comfortably with the big, bright

touch screen display. Easily switch between portrait and landscape display modes.

### **A powerful mobile solution goes beyond the device.**

Whether you're an IT manager or a mobile professional, you work in a complex environment. Your world—spanning countries and continents, an array of wireless technologies and networks, and powerful applications and communication tools—has a singular purpose: to drive business results.

HP, a global leader in technology, services, and support, understands that mission. Our mobile devices are certainly impressive – but they're just a small piece of the challenging puzzle that is your enterprise mobility program. Your business runs on key applications. Your proprietary data is irreplaceable and must be protected. Your IT effort that goes into testing, approval, deployment, and remote management is enormous.

HP can help you deploy and support your mobility strategy—from device-level support to enterprise support solutions, across geographies and vendors. Put our mobile devices and global support to work for you.<sup>6</sup>

Think mobile. Think global. Think HP.

<sup>1</sup> A standard GSM/GPRS/EDGE/UMTS/HSDPA infrastructure, Wi-Fi or other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless airtime provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Wireless transmission speeds may vary based upon network capabilities and other conditions. Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength.

<sup>2</sup> EDGE (Enhanced Data for Global Evolution) is a global standard for wireless wide-area data communication being rapidly deployed by GSM carriers worldwide. Actual download speeds may vary. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Not all features and service options are available in all areas.

<sup>3</sup> Normal GSM Data Calls (CSD) are not basic GSM data services. These services may not be available via all operators, and may require separate subscription. Maximum connection speed is used in defining maximum speed. The GSM Operator may change the speed of connection and reduce time slots at its discretion if the network is congested. These actions may cause lower total data rate than the requested data rate.

<sup>4</sup> Telephone service requires separately purchased contract with a telephone service provider with coverage in your service area. Additional fees may apply for some features, check with service provider.

<sup>5</sup> GPS navigation software is included in select countries. Purchase of additional maps and/or software may be required to enable some features or allow navigation in certain areas. Availability of maps is limited. Map coverage may vary and is not guaranteed.

<sup>6</sup> Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. For details, visit [www.hp.com/go/carepack](http://www.hp.com/go/carepack).

<sup>7</sup> The 'Read email' Voice Command feature is only available for email sent via an Exchange Server to the Outlook Inbox.

<sup>8</sup> Included with some models or sold separately as an add-on feature.
